# Novoferm Sectional Door Specifications

All Novoferm ISO 20 steel overhead sectional garage doors are supplied 20mm thick double skinned steel sections made of hot galvanised thin sheet, with CFC free PUR rigid foam (insulation value  $k=1.0$  W/m K) giving good heat and sound insulation, anti pinch profile.

All Novoferm ISO 45 steel overhead sectional garage doors are supplied 45mm thick double skinned steel sections made of hot galvanised thin sheet, with CFC free PUR rigid foam (insulation value  $k=0.5$  W/m K) giving excellent heat and sound insulation, anti pinch profile.

All Novoferm ISO 70 steel overhead sectional garage doors are supplied 70mm thick double skinned steel sections made of hot galvanised thin sheet, with CFC free PUR rigid foam (insulation value  $k=0.34$  W/m K) giving excellent heat and sound insulation, anti pinch profile.

All Novoferm overhead sectional doors can be supplied with locking if required as an extra, this will be drilled on the right hand side viewed from outside as standard unless otherwise requested. Novoferm ISO 20, ISO 45 and ISO 70 steel overhead sectional door panels are supplied in woodgrain and smooth surface pattern, a pre-finished polyester exterior coating (RAL 9016 as standard). All sections are prepared for mounting hardware, floor profile, floor seal and locking (if required).

All Novoferm ISO 20 steel overhead sectional garage doors are supplied with triple safety extension spring assemblies positioned to the rear of the vertical frame legs.

All Novoferm ISO 45 and ISO 70 overhead sectional garage doors are supplied with triple safety extension spring assembly positioned to the rear of the vertical frame legs for doors under 3 metres wide x 2.7 metres high.

All Novoferm ISO 45 and ISO 70 overhead sectional doors over 3 metres wide x 2.7 metres high are supplied with front mounted torsion spring shafts and galvanised torsion springs as standard, spring break safety feature tested in accordance with DIN EN 12604 and steel lifting cables. (Optional low headroom kit may be added if required).

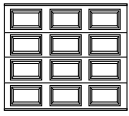

All Novoferm ISO 20, ISO 45 and ISO 70 overhead sectional garage doors are supplied with angle frames and fascia panel made of hot galvanised thin sheet steel with a smooth surface pre-finished polyester coating (white RAL 9016 as standard), frame and fascia seals are black EPDM rubber, colour matched leg profile covers are available as an optional extra.

All Novoferm garage doors and operators are manufactured according to the strict quality management system ISO 9001.

- All sectional garage door systems meet the high safety requirements of the European garage doors standard EN 13241.
- All Novoferm garage doors and operators are tested by recognised institutes both individually and in combination.
- At Novoferm, all garage door operators are tested in combination with all Novoferm garage doors, and comply with current standards and rulings, thus eliminating the possibility of incorrect application.
- "TÜV-tested burglar resistance": The German industry association for garage doors, doors and frames (Industrieverband Tore Türen Zargen) has drawn up a guideline that defines burglar resistance based on the existing standards. TÜV NORD CERT GmbH tests and certifies the garage doors: Novoferm's certified garage doors guarantee the highest levels of safety tested by an impartial organisation.

For made to measure pricing, use the next size up. Heights between 2125 and 2225 have cut top panels.

ISO 45 sectional doors up to 2125mm 4 panels high, up to 2500mm 5 panels high, up to 3000mm 6 panels high. ISO 45 sectional doors have an insulation value of  $k = 0.5 \text{ W/mK}$

For heights  $> 2125 < 2225$  the top panel will be cut to suit the door height.

### Minimum sizes

2000mm width and 1875 height.

**Please note: Number of windows are provided as a guide based on door width - please check when ordering for actual number of windows.**

## SECTIONAL ISO45 EVO OVERHEAD GARAGE DOORS CONTINUED

### OPTIONAL EXTRAS FOR ISO 45 DOORS

Sectional frame heads are colour matched to the door as standard.

#### Frame leg cover profiles 2.5 m length

White	85mm x 20mm (per pair)	<b>Add £95</b>
	55mm x 20mm (per pair)	<b>Add £95</b>
Super Colour	85mm x 20mm (per pair)	<b>Add £105</b>
	55mm x 20mm (per pair)	<b>Add £105</b>
RAL colour	85mm x 20mm (per pair)	<b>Add £165</b>
	55mm x 20mm (per pair)	<b>Add £165</b>
Wood Effects	85mm x 20mm (per pair)	<b>Add £165</b>
& Satins	55mm x 20mm (per pair)	<b>Add £165</b>

Please note: For Winchester and Night Oak coloured doors, cover profiles cannot be supplied in a laminate finish but are instead colour-matched:

Night Oak Profiles = RAL 8022 Black Brown

Winchester Profiles = RAL 8001 Ochre Brown

#### Super Colour Options

Minimum height of a single retractable door is 1880mm.

**For made to measure pricing, please use next size up.**

## SPECIFICATION

Novoferm Secured by Design garage doors have spring assisted retractable action for smooth running. Factory fitted steel frames as standard 70mm wide for retractable with a 45mm frame head. Novoferm Secured by Design Up & Over garage doors can only be supplied in a pre-hung factory finished steel fixing frame, which makes installation simple and eliminates the need for a timber frame. All up & over doors are white RAL 9016 as standard and supplied with our black "D" handle.

**Secured by Design doors are bespoke and made to order. Automation not available on SBD doors.**

## OPTIONAL EXTRAS FOR NOVOGUARD SBD UP & OVER DOORS

### UNIQUE TECHNOLOGY WITH FLEXIBLE SIDE MOUNTING FOR NOVOFERM SECTIONAL GARAGE DOORS

The NovoPort® operator system not only offers maximum convenience during operation, but also during installation. After all, it is not fixed to the ceiling like conventional operators, but simply integrated into the side garage door track – either on the left or the right depending on the structural conditions. Therefore no ceiling assembly is required and any installation problems are ruled out from the outset. All structural components are preassembled in the factory and dimensionally accurate – simply insert them together and voilà!

### POWER OPERATED GARAGE DOORS

It is against the law to install a power operated garage door in the UK without complying with The Machinery Directive.

To comply with the Machinery Directive both the door and the operator used in the Installation must have a declaration of Incorporation from the manufacturer.

On completion of the installation the Installer must provide a Declaration of conformity and apply a CE mark giving details of the installation (as example) to the door / operator combination, which is now classed as a machine.

The Installer must issue to the Customer a declaration of conformity on the completion of the installation.

The Installer must hold copies of both the Declarations

of Incorporation and the Declaration of Conformity on a technical file for inspection by the relevant authorities.

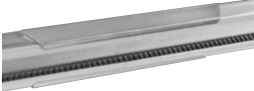

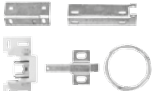

If any of the above requirements are not fulfilled the Installation is illegal.

Please ensure for your own safety and peace of mind that whoever installs your electric operator is both willing and able to fulfil these requirements; if they are not - do not use them!!

Members of the DHF Garage Door Group CAN and WILL install your Novoferm operator safely and legally.

## GARAGE DOOR ACCESSORIES

Images not to scale.	Product code	Accessory	Novomatic compatible	NovoPort® compatible	Price
	OP00032	<b>Signal 112 - Wired Wall Switch</b> Start key, holiday switch, continuous light (On/Off), 24 V connection to the operator in UV-resistant material (wires not included)	•	•	£77

**NOTES**

## WARRANTY INFORMATION

The purchaser is granted a warranty covering the safe and reliable functioning of the door. For full warranty details please see our website [www.novoferm.co.uk](http://www.novoferm.co.uk).

### PRICES

- All orders are accepted on the understanding that the goods will be subject to the price ruling at the time of delivery, unless other terms are specifically agreed.
- All prices are in £ sterling and exclude VAT. UK mainland delivery is included to the buyer's trading address - delivery to site is possible (subject to access). See delivery details below.
- A 25% handling charge applies to all unwanted items on standard stock items only. Items must be returned unopened and in an unused condition.
- All returns are subject to acceptance by the manufacturer of the garage doors.
- All doors are bespoke and made to order. Your right to cancel is not available on non-standard made to order doors.

### DELIVERY CHARGES TO SITE

For delivery charges to site please call our customer service team on 01582 563777.

24 hours notice will be given for all deliveries.

Should you require delivery at a later date, please advise at point of order.

### SPECIFICATION

- Due to the progressive outlook of the manufacturer we reserve the right to alter specifications to design and manufacture without notification.
- All specifications and details are correct at the time of publication, errors and omissions excepted.

### ALL DOORS

#### Colour Match

- Pairs of doors should be ordered together to obtain the best colour match, bearing in mind the limitations of the materials used in the construction.
- Dark colours on garage doors which are exposed to direct sunlight for a considerable period of time should be avoided as they will fade more noticeably due to the strong sunlight.
- All colour samples depicted in this brochure are as close to the original manufacturer's colours as possible. Garage doors supplied may vary in colour from the brochure representation due to printing processes.

### SIZE VARIATIONS

- As the size of a door changes in height and/or width, the panel frequency and profile can change, therefore doors of the same style but of different sizes can display a significant difference in appearance.

### CLEARANCES

- All doors require operating clearances, i.e. the gap between the door panel and frame opening, these are inbuilt during manufacture and should not be reduced by means of INFILLS, or draught proofing.

### DEFLECTION

- When in the open position, all doors will display a level of vertical deflection or 'sag' across the width of the panel.
- Individual manufacturers' specifications should be consulted for exact tolerances.

### CARE AND MAINTENANCE

- In order to get the best from your door, and for your door to be fully covered by the Guarantee, there are some things you will need to do throughout the guarantee cover period and throughout the life of the door in order to maintain and care for your garage door.

Please see our website for full details on how to do this
